## SKILLS

WEB DEVELOPMENT

SCRUM

BDD

Empathy

Logical thinking

Analysis capabilities

Initiatives to share with the team

Passion for teaching

Intermediate english

## MARLON JAVIER RUIZ TARUCHAIN

Backend & Web Developer

### Profile

I am a programmer with 4 years of experience in frontend development using React.js, Apollo Client and JavaScript. I'm master level in JavaScript and have worked on numerous projects using technologies like HTML, CSS and libraries like Bootstrap, Material UI and many more.

On the backend side, I have 3 years of experience working with Python. I have used frameworks like Flask and I have used tools like SQLAlchemy to interact with databases. I also have knowledge in GraphQL, specifically with the Graphene-SQLAlchemy library, to create flexible APIs. In addition, I use Docker, which allows me to deploy applications quickly and efficiently.

My knowledge and experience allows me to work on challenging projects and I am always interested in expanding my knowledge and technological skills.

### BITPROY (2021 - 2023)

Programmer using web technologies for the frontend as well as native javascript APIs to improve performance and process optimization, development of hybrid mobile applications with React Native – Expo. Web and Mobile Project Supervisor

### FREELANCER (2021 - Now)

Back-end and web developer using technologies like JavaScript, React Apollo Client, and Python, Flask, GraphQL

### Portfolio
